

Beyond the Visible (30 mins)

Created in 2013 as the new interpretive film for the National Radio Astronomy Observatory's Karl G. Jansky Very Large Array (VLA) public Visitor Center, this 24-minute production explores the synergies of technology and human curiosity that power the world's most productive radio telescope.

The program depicts many of the people whose diverse efforts enable the VLA to be a cutting-edge resource for astronomers and humanity worldwide.

Winner of a 2014 Cine Golden Eagle Award, 2014 Interpretive Media Award from the National Association for Interpretation, and a 2014 Bronze Telly Award.
