Noobs to dudes that won't leave their couch rejoice... there is a show for you!

IE is the world's most interactive video game show. Sure, we review the newest games, show the hottest trailers, rant on the biggest issues, but this show is all about viewers. We want videos, we want screenshots, and we want viewers to have their 15 minutes of fame with us. So go ahead viewers, spill your beans. Give us your two cents. We could use the change.
